

We are hiring a  
Senior UX/UI  
Designer

# Senior UX/UI Designer

We are looking for an experienced UX/UI Designer to join our team:

Employment type: 32-40 h / week

Location: Europe (remote) or Utrecht, NL (hybrid)

Experience: Senior level

Contact: [careers@satellintelligence.com](mailto:careers@satellintelligence.com)

Salary: 60-75k including holiday allowance / 40 h per week

# Meet **Satelligence**

25+

years of  
experience

60+

clients  
& partners

**Satelligence** is the market leader in remote sensing technology for sustainable sourcing with the mission to halt deforestation. We provide traders, manufacturers and agribusinesses such as Mondelez, Bunge, Cargill, Unilever, Rabobank with critical sustainability insights empowering them to minimize their global environmental footprint and track their progress against climate objectives, ensuring a sustainable supply chain.

We were founded in 2016 and currently employ +40 people, working in Utrecht and several locations in Asia, Africa, and South America.

# About the job

The UX/UI Designer will be part of the Design Team, the team responsible for designing the app while responding to Satelligence users' needs.

You will work with other designers and cross-multidisciplinary teams (squads) to assure Satelligence business objectives and clients requirements are satisfied through a user friendly app.

From concept to development to strong UI components aligned with our Design System, you will collaborate closely with Developers to find quick solutions and ship features in each sprint.

# What will you do?

We are looking for a **Senior UX/UI Designer** with multiple years of experience in designing complex SaaS platforms. With that extensive experience and knowledge you will:

- Own and drive the end-to-end design process: from user research and wireframes to high-fidelity mockups and prototyping
- Collaborate closely with product managers, developers, and other stakeholders to translate complex user needs into clean, intuitive, and scalable interfaces.
- Design for consistency across the product by maintaining and evolving our design system.
- Conduct usability testing and iterate based on user feedback and data
- Advocate for UX best practices and design thinking throughout the organization.

# About you

We are looking for an experienced **UX/UI Designer**

- 5+ years of experience in UX/UI design, with at least 2 years designing SaaS applications.
- Strong portfolio showcasing user-centered design, interaction design, and visual design excellence
- Proficiency in Figma.
- Solid understanding of responsive and adaptive design principles.
- Comfortable with user research methodologies (e.g. interviews, surveys, usability testing).
- Strong collaboration and communication skills—able to clearly articulate design decisions to cross-functional teams.
- Experience working in agile environments and with developer handoff tools (e.g. Zeplin, Storybook)

## **Bonus Points If You Have:**

- Experience working at companies in the environmental, sustainability, or geospatial data sectors.
- Familiarity with data-heavy or analytics platforms and translating complex data into intuitive user experiences.

# What we offer you

- 📍 Office centrally located in Utrecht city
- ☂️ 27 holidays (based on full-time employment)
- 👐 Pension scheme
- 🍷 Daily lunch and Aroma Club coffee at the office
- 🏠 Hybrid working options

Ready for the challenge? Then we would love to hear from you! Email us at [careers@satelligence.com](mailto:careers@satelligence.com). Enclose your portfolio, and share why you'd be the perfect fit for this position. If you don't tick all the boxes, don't worry. Apply anyway, and we will review your application!

*We kindly ask that recruitment agencies do not contact us regarding this vacancy. We are not seeking assistance from external parties at this time for this role.*
